

Brainstorm & idea prioritization

For Smart Farming - IoT enabled
Smart Farming Application

- 12 minutes to prepare
- 1 hour to collaborate
- 2-3 people maximum

Rechtsanwälte, Steuerberater, Wirtschaftsprüfer

PROBLEM
Farmers are under pressure to produce more food and use less energy and water in the process. A remote monitoring and control system will help farmers deal effectively with these pressures.

Brainstorm
Write down any ideas that come to mind that address your problem statement

Group lifespan

Priorities
Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.
